TALK OF THE TURF.

Sharp Practices Checked at the Guttenburg Track Yesterday.

Rumored that Capt. Brown Will preferred 3, while Rio Grande Western com-Retire - McDermott's Im-

proved Riding.

No fair-minded man will condemn Judge Burke for his action in deciaring bets off in the fourth raise at Guttenburg yesterday. He abruptly checked a practice which places the public and the bookmakers at a decided disadvantage, and had a perfect right to act as he did under the raises of racing. In order that the reason for Judge Burke's ruling it may be necessary to explain matters. The pool-rooms in this city pay a considerable sum to the Guttenburg track for increased over \$2.00,000, and the surface.

Pink Burke for his action in deciaring bets off in the fourth raise at Questioned the competitive examinations to reverse these ratios and make the efficiency record count 80 per cent. and the results of the collections equal to or above those at the close of yesterday.

The inaustrials were strong throughout, but the service and the competitive examinations to reverse these ratios and make the efficiency record count 80 per cent. and the results of the collection of above those at the close of yesterday.

The sales of stocks were 180,000 shares, or which 15,000 were unlisted.

Officials of the Guttenburg track for information regarding the races. Naturally they expect, and are fully entitled to.

The ship of the service at the competitive examinations to reverse these ratios and make the effecting of the service and the competitive examinations to reverse these ratios and make the efficiency record count 80 per cent. and the sugar, chicago Gas and Bristfalling & Cattie-Feeding having been to brisk request at quefficiency record count 80 per cent. and the sugar, chicago Gas and Bristfalling & Cattie-Feeding having been to brisk request at quefficiency record. In any event, proper provision for the exercise of the best judgment of the results of the Sugar, chicago Gas and Bristfalling & Cattie-Feeding having been the close of the service and the competitive examinations to reverse these ratios and make the efficiency record. In any event, proper provision for the promotions should be made.

PINKER they expect, and are fully entitled to, the protection of the officials. Their representative at the track is William Kane, whose duty it is to send in the scratches, changes in weight, jockeys, cetting and other useful information. He approaches owners with a view to obtaining the names of jockeys who are to ride their horses. Yesterday ne asked John Connelly, trainer of Prince Fortunatus, who was to ride that horse in the fourth rac... Connolly declares that he said "Larrissey or Martin." Kane says he understood Connolly to say Larrissey, and accordingly the latter was posted as the rider of Prince Fortunatus. Jack Adler also understood that Larrissey was to ride Prince bookmakers in the ring with that information.

Neither of these gentiemen, nor did anyone else intow that Martin was to ride entit in appeared at the scales wearing the colors of good a lockey as Martin by many pounds and the bookmakers list a good price against the horse. He was strongly backed and considerable move that he been horse. He was strongly backed and considerable move that was announced as the rider of the Prince. There is the structuon in a nutshell. The bookmakers and the public had been wagerfug their money at an ufair diad. And the wagerfug their money at an ufair diad. And the wagerfug their money at an ufair diad. And the wagerfug their money at an ufair diad. And the wagerfug their money at an ufair diad. And the wagerfug their money at an ufair diad. And the wagerfug their money at an ufair diad. And the wagerfug their money at an ufair diad. And the wagerfug their money at an ufair diad. And their was not until late in the day that he secured Martin's services: that he was not compelled for un after Kane and Adler to tell them that the jockeys had been changed. Very true, but rule 40 of the Rules of Racing says very clearly and distinctly that "a horse shall been announced as a starfer and the name of the jockeys had been changed. Very true, but was not the clerk of the soales not less than thirty minutes before the time appointed for the race." Mr. Burke declares positively that Martin did not weigh out until twenty minutes before the time appointed for the clerk of the soales not less than thirty minutes before the time appointed for the clerk of the soales not less than thirty minutes before the time appointed for the race." Mr. Burke declares positively that was not the clerk of the soales not less than thirty minutes before the time appointed for the clerk of the course any person they may deem cuipable in the matter." In the propose of the course and process and the process between the two men, and he got one on each arm and marched them of to the club-house, where creything was fixe Fortunatus, and he sent in his slips to the ookmakers in the ring with that information.

Shields, who agreed to make up the rest of the surplus.

Dame Rumor says that Mayor Grant and Mr. Nathan Straus will surely become partners in a racing stable next season. There has always been a suspicion that the Mayor and an interest in the Straus stable.

Capt. S. S. Brown is in the city. He is reported to have said that he will dispose of his entire stable and retire from the turf very moon.

Messars. M. F. Dwyer, Joe Vendig and Philip Dwyer, Jr., leave for Rock Ledge, Fla., on next Tuneday.

It is more than likely that W. Hayward, the father of jockeys, will apply for a trainer's license next season. He has twelve promisches under his care.

W. C. Winters, owner of King Crab, was thrown from his carriege entering the track yesterday and was severely hurt.

Starter Caldwell came in for all the abuse because of the start in the first race yesterday. As a matter of fact, it was not Mr. Chidwell's fault at all. The jockeys them selves were to biame for not watching the advance flag instead of the starter's bunting. The neid was bunched and by the starter before he dee'ded to let thomgo. If the jockeys were trained to watch the advance. Starter Caldwell came in for all the abuse because of the start in the first race yesterday. As a matter of fact, it was not Mr. Caldwell's taut at all. The lockeys them selves wore to binne for not watching the advance flag instead of the starter's bunting. The flest was bunched and by the starter before he decided to let them go. If the lockeys were trained to watch the advance flag only there would be fewer bad starts. In most cases the boys are to blame.

McDermott's riding was excellent yester-day. In fact he has improved greatly since he left O'Leary's stable.

The finish in the third race was one of the finest ever seen on a race track. In fact the whole day's racing was the best of the meet-

half brother to Jay-Eye-See, owined by George W. Fowler, and a brood mare and colf, swend by Landlord Suras, of the hotel, were burned to death. The stallion Challenge was valued at \$8.000. The horsel were not lastices.

Lawyer Leventritt Socures an Ex-The Hames were confined to the stable. The Litel was saved. The fire is supposed to have been of incendiary origin. The loss was about \$10,000.
